OBJECTIVE

Computer Science Engineering student skilled in Java and the MERN stack (MongoDB, Express.js, React, Node.js), with hands-on experience building and deploying web applications and data-driven projects. Competitive programmer and hackathon participant seeking a software engineering internship to deliver impactful solutions.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering
Jerusalem College of Engineering
2024 – 2028 | CGPA: 9.40

SKILLS

Languages: Java, C, C++, Python, JavaScript

Frontend: HTML, CSS, React

Backend: Node.js, Express.js

Database: MongoDB

Concepts: Data Structures, Basic Algorithms

Tools: Git

PROJECTS

Multi-Spectral Image Analysis for Water Body Monitoring

- Developed a system to analyze multi-spectral images for monitoring water bodies and detecting environmental changes
- Focused on identifying patterns and changes in environmental data

Personal Portfolio Website

- Designed and developed a responsive portfolio website to showcase projects and technical skills
- Implemented clean UI layout and mobile-friendly design using HTML, CSS, and JavaScript

Responsive Landing Page

- Built a responsive construction company landing page with a clean UI design and mobile-friendly layout

CERTIFICATIONS

Diploma in Computer Applications

MERN Stack Development Certification

Infosys Data Structures and Algorithms Certification

ACHIEVEMENTS

- Shortlisted in Prince iSolve Hack'26 (Top 100 out of 532 participants)
- Achieved 2nd rank in 1st semester and 1st rank in 2nd semester
